

## Transalis Cloud Global Integration Hub

The **Transalis Cloud™** integration hub integrates data into over 50 of the world's core supply chain business ERP, Accounting, Retail, Warehouse, Logistics, Manufacturing and Healthcare systems. Transalis provides multiple integration solutions, built on the same methodology for fully integrated, digitally enabled supply chains.

We digitise and integrate any data with any system, allowing highly flexible integration of multiple documents and standards between multiple networks, systems and trading partners.

### Transalis Provides Multiple Integration Solutions

- Transalis Cloud™
- 50 core systems
- Retailing
- Accounting
- Warehouse
- Logistics
- Manufacturing
- Healthcare

Our cloud integration hub allows users to securely and reliably exchange business documents throughout their global supply chains, regardless of document or data formats, network standards or connectivity to help maximise efficiencies and increase competitive advantage.
